

SOUTH GLOUCESTERSHIRE SAFEGUARDING ADULTS BOARD TRAINING BROCHURE 2025-2026

About Us:

The South Gloucestershire SAB works to help and safeguard adults with care and support needs. Its role is to make sure local safeguarding arrangements are effective, person-centred, and continuously improving.

The Board brings agencies and communities together to prevent abuse and neglect where possible, and to ensure timely, proportionate responses when concerns arise. It does this by:

- Publishing a strategic plan and annual report
- Commissioning Safeguarding Adults Reviews (SARs) where required
- Promoting the six safeguarding principles: empowerment, prevention, proportionality, protection, partnership, and accountability

Central to its work is Making Safeguarding Personal – ensuring that safeguarding practice focuses on the outcomes that matter to individuals. This includes accessible information, advocacy, person-centred risk approaches, and supporting practitioners to embed a personalised safeguarding culture across all service.

*Multi-Agency
Working*

Training Courses

Who Can Access the Training?

Our safeguarding training is open to professionals from all organisations who work with adults and children.

A multiagency approach helps us to:

- Understand each other's roles
- Build stronger working relationships
- Achieve better outcomes for children, adults and families

What Training Do I Need To Do?

The SGSAB has created [Safeguarding Adults Training Standards](#) to help organisations plan safeguarding adults training.
