Early Years Consultation Meeting Parental Consent Form

Pre-School Setting:

Member of Staff:

Role within Setting:

Name of Child:

Date of Birth:

Early Years Consultation Meetings provide a facility for Early Years settings to discuss children who have additional needs that they are concerned about.

I give consent for my child to be raised at an **Early Years Consultation Meeting**, to discuss their additional needs and how best to support these needs. Professionals at the meeting may include:

- Early Years Team staff: Early Intervention Officer, Setting Support Officer, Education Support Worker
- Educational Psychologist

This form does not confer parent/carer consent for wider information sharing or for the direct involvement of any service. If the involvement of another professional is required after the consultation meeting, then the setting will need to complete the appropriate involvement request and parent/carer consent paperwork for that agency.
