

Transition assessments for **YOUNG CARERS**

Getting closer to 18 and thinking about your future?

What will I do after college?

How can I move out of home?

Where do I look for a job?

I'd like to go to university

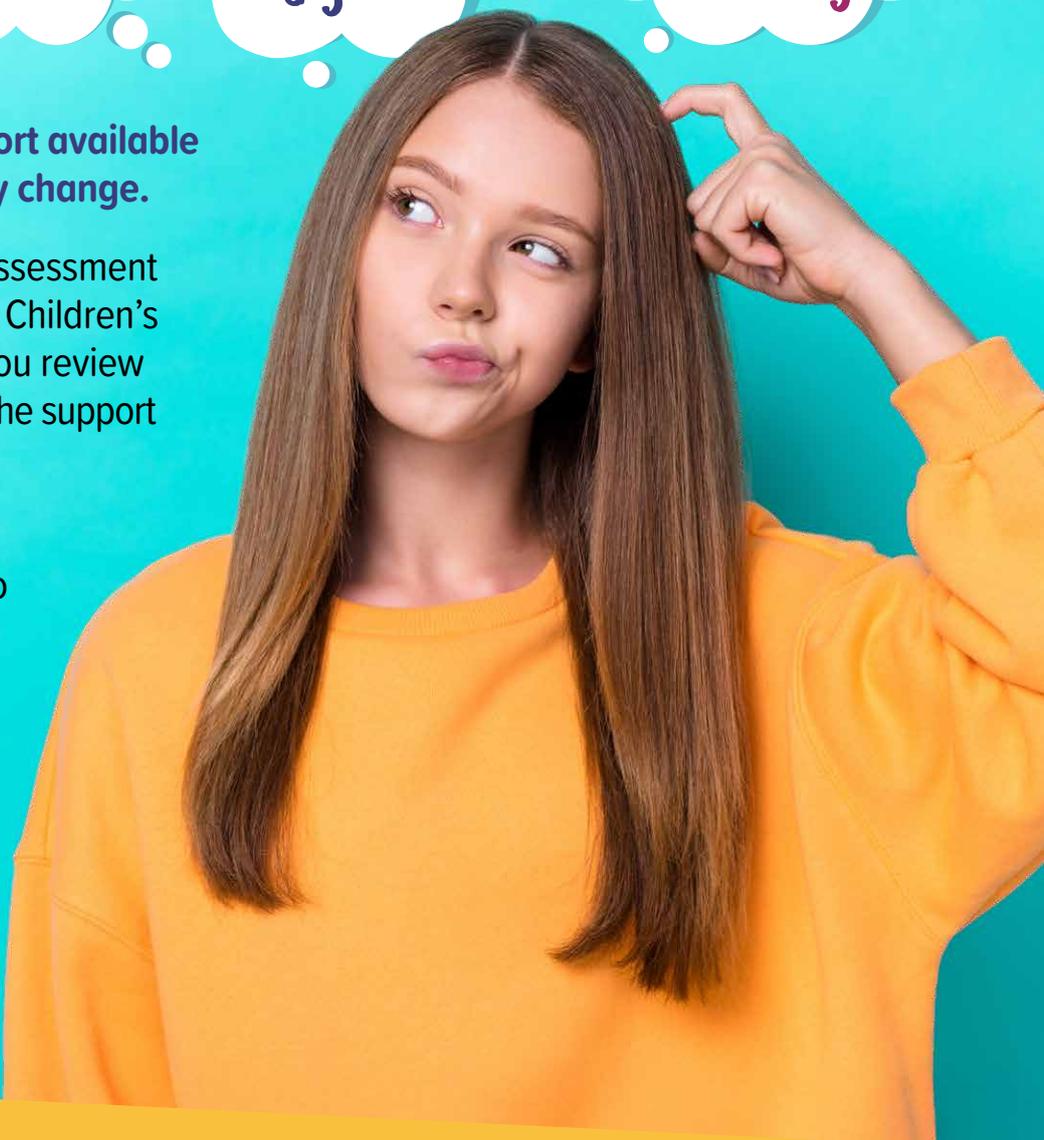

When you turn 18, the support available to you as a young carer may change.

You can ask for a transition assessment before you reach 18, where a Children's Services professional helps you review your caring role and explore the support you'll need in the future.

If you are a young carer and aged over 15, you are likely to be eligible for a transition assessment. To request this service or find out more, contact the Access and Response Team:
